Patent No. 5976807

GENERAL INFORMATION:

APPLICANT: Horlick, Robert A.

APPLICANT: Bonaj, Bassam B.

APPLICANT: Robbins, Alan K.

TILLE OF INVENTION: Extravotic Cells Stably Expressing Genes

TILLE OF INVENTION: Example Transfected Episomes

FILE REFERENCE: 0867/1D903US1

CURRENT APPLICATION NUMBER: US/09/130,114

CURRENT FILING DATE: 1998-08-06

NUMBER OF SEQ ID NOS: 36

SOFTWARE: FastSEQ for Windows Version 3.0

score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                Sequence 11,

Sequence 13, Application US/10465217
Publication No. US20030204859A1
Publication No. US20030204859A1
GENERAL INFORMATION:
APPLICANT: Kazemi-Esfarjani, Parsa
APPLICANT: Benzer, Seymour
TITLE OF INVENTION: AN ANIMAL MODEL OF POLYGLUTAMINE
TITLE OF INVENTION: TOXICITY
TITLE OF INVENTION: TOXICITY
TITLE OF INVENTION: TOXICITY
CITLE OF INVENTION: USXICITY
CURRENT APPLICATION NUMBER: US/10/465,217
CURRENT FILING DATE: 2003-06-18
